THE space YOU NEED FOR life

STORAGE UNIT SIZE GUIDE

what size space do i need?

At Century Storage, our slogan is "The space you need... the service you deserve" We strive everyday to provide the highest level of service in the industry, and every customer should expect the same service no matter what location you are renting from or what size unit you rent.

But when it comes to the space you need, every customer is unique. Our storage associates are trained to help you with that decision, and this brochure gives some basic information and tips to help you find the right size storage space to accommodate your needs.

FIND YOUR SPACE

tiny

WALK-IN CLOSET 5' X 5'

With 25 square feet of space, these units are an excellent size to store all of your extra items, like garden tools, seasonal items, office supplies, or your miscellaneous boxes.

climate-controlled units \$ _____
non-climate controlled \$ _____

small

MID-SIZE BEDROOM 5' X 10'

This size unit yields a total of 50 square feet of space, perfect for storing an entire bedroom or office.

climate-controlled units \$ _____
non-climate controlled \$ _____

medium

FAMILY ROOM 10' X 10'

This 100 square foot unit is ideal for storing an entire living room and two full bedrooms.

climate-controlled units \$ _____
non-climate controlled \$ _____

large

3 BEDROOMS 10' X 15'

With 150 square feet of space, this large unit can typically store the contents of 3 bedrooms. This space is also ideal for larger items like televisions, pianos, couches, or tables.

climate-controlled units \$ _____
non-climate controlled \$ _____

huge

FULL HOUSE 10' X 20'

Capacitating roughly 5 bedrooms, and larger items like washers, dryers and refrigerators.

climate-controlled units \$ _____
non-climate controlled \$ _____

gigantic

LARGE HOUSE 10' X 30'

With a whopping 300 square feet of space, ideal for a 5 to 7 bedroom house, easily storing entertainment centers, refrigerators, beds, couches, and more!

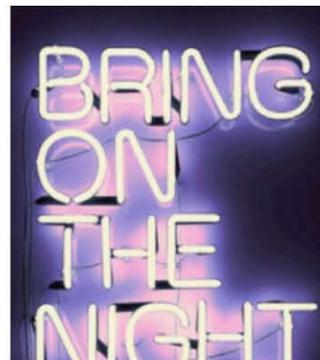

climate-controlled units \$ _____
non-climate controlled \$ _____

BOOK YOUR FLOW

WE ARE FLOW YOGA.

Here's a short placeholder introduction about our studio. Flow yoga is a term given to a style of yoga where the practitioner moves gracefully from one pose to the next and the class, or practice, becomes almost like a dance.

NEW TO OUR YOGI TRIBE?

NEW CLIENT SPECIAL

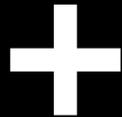

To the beginner, yoga can feel intimidating and overwhelming. For the athlete, yoga might seem bland or boring. For the advanced yogi, practice could become impersonal or stagnant. We're here to bust all of those myths and create a studio that's the perfect fit for every stage of your practice, proving that yoga is truly for everybody and every body. Whether you're looking to begin or advance your yoga practice, build & tone muscle or cross-train & increase flexibility, feel better about your body or improve your mental health, you'll find what you need at Free Flow.

FREEFLOWYOGA.COM

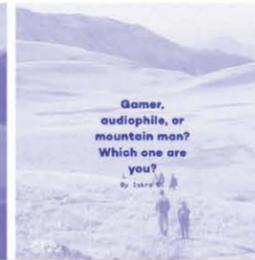

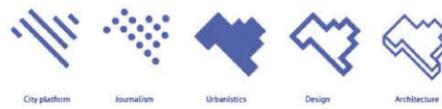

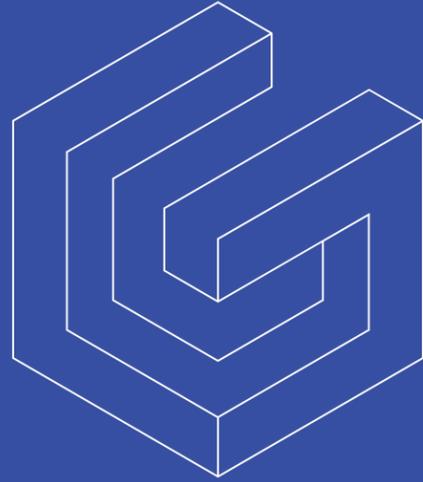

CLASSES

- + VINYASA** Moderately heated room, 70-80 degrees. Each class is uniquely structured and sequenced, but you can always expect a moderately-paced practice linking breath with movement.
- + POWER FLOW** Get ready to sweat! This one is HOT! Practiced in a room heated between 80 and 90 degrees, you will be moved through a vigorous practice that will both challenge and empower you.
- + GENTLE VINYASA** No experience needed... seriously! Not flexible? That's fine. In Gentle Vinyasa, we create a safe and open environment for you to gently arrive into your yoga practice. This class will move at a slower pace and will focus on proper alignment and form.
- + RESTORATIVE YOGA** Restorative is all about slowing down and opening your body through passive stretching. Long holds allow your muscles to relax deeply. Props, rather than your own muscles, are used to support your body, creating a unique experience.
- + 11:11 YOGA FUSION** 11:11 is an urban methodology yoga class (get ready for some hip-hop beats!) with 11 primary poses (asanas), 11 sun salutations, 4 cardio bursts, and 7 chakra openers – all in a palindrome format.
- + NUBELL SCULPT** Our signature class is a mix of strength training exercises with NuBells® enhanced with a powerful yoga flow so you can lengthen and strengthen your muscles. Expect to sweat and move. You can increase intensity or modify as your practice dictates. Open to all levels. Room is unheated.
- + BOUNCE** FreeFlow Bounce is an exhilarating cardio experience that introduces rebounding exercises and combinations as well as explosive tabata-style intervals. A portion of the class is also dedicated to full-body strength training and core work so that your body is challenged to its max! Although this class is for all levels, the cardio is still intense, leaving you drenched in sweat and feeling OH SO GOOD!

GRAB®-300
ground retractable automobile barrier

A "LESS-THAN-LETHAL" ALTERNATIVE TO VEHICLE BARRIERS USED WORLDWIDE.

The Ground Retractable Automobile Barrier (GRAB-300) system is an active vehicle barrier that has met the demanding ASTM M50 test criteria established by the Department of Defense. The system provides ultimate security while reducing the likelihood of injury to vehicle occupants. In numerous real world impacts, GRAB systems have effectively stopped vehicles weighing up to 80,000 pounds and vehicles traveling at speeds reaching 50 mph.

The GRAB system has been the barrier of choice for government agencies, military, petrochemical industry, and a wide variety of corporate companies.

GLOBAL GRAB

SW1900 WEDGE

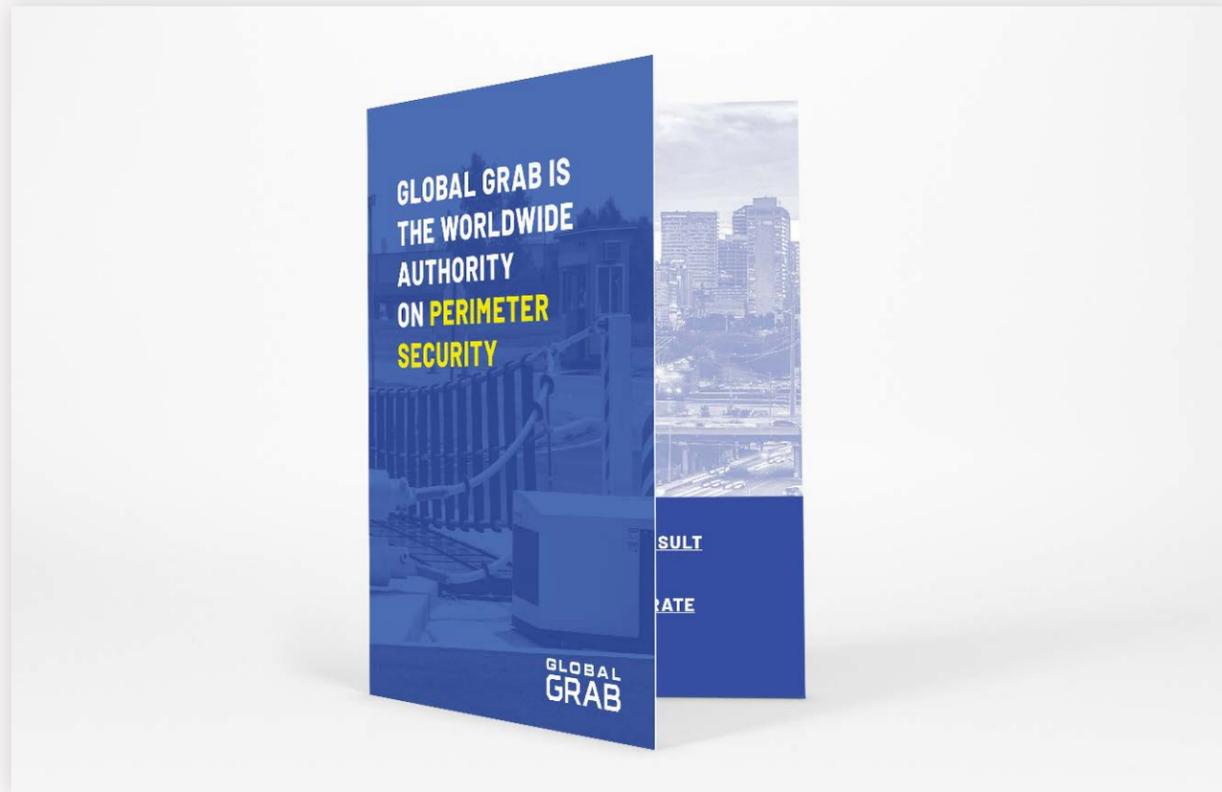

Global GRAB Technologies, Inc. offers an innovative wedge barrier that eliminates many of the challenges experienced during the procurement, installation, use, and maintenance of traditional systems. Available in either Hydraulic, Electro-Mechanical, or Hydro-Electric Hybrid models that utilize the same as-tested barrier structure, the SW1900 wedge provides ASTM 2956-07 M50/PI (85,000 Lb truck at 50 MPH). Penetration less than 3.31 ft.) rated protection suitable for a wide variety of facilities. Following independent 3rd party testing, the test vehicle's crush-test envelope was removed, and the SW1900 was immediately cycled multiple times under its own power demonstrating that the SW1900 could withstand an impact and remain functional.

POSITIONING STATEMENT

The Jamie Beckwith Collection is a bespoke line of high-end, design-focused, inspired wood surfacing solutions that transform an interior space into a showpiece.

BRAND ATTRIBUTES

INSPIRED

Existing within a design-first mindset, we allow the magic of inspiration found in each of our experiences within the world, both minimal and majestic to shape the creation of our product.

POWERFUL

The resulting interior showpieces created have a commanding influence on the viewer's emotions.

LUXURIOUS

Our product evokes an affluent ambience curated purposefully through unique beauty and distinctive style.

DISTINCTIVE

Our collection of wood surfacing products is completely unique, allowing for the creation of remarkable interior showpieces.

WHY SYNERGY? BECAUSE YOU GET TO WORK WITH RACHELLE.

LEARN MORE

WHY SYNERGY DESIGN & INTEGRATION?

Beyond consulting, designing and building custom, turnkey material handling systems, what sets us apart from other materials handling system integrators is...

EXPERIENCE

Synergy's small, nimble team has deep industry experience, with individuals located across the U.S. for rapid on-site response.

SPEED

Extremely fast turnaround time on design concepts, implementations and commissioning.

ATTENTION

Our team is your team; every customer has direct access to—and receives personal attention from—Synergy team members.

OUR EXPERTISE.
YOUR VISION.
YOUR CHALLENGE.
OUR SOLUTION.

LET'S DO THIS. TOGETHER.

SYSTEM DESIGN & ENGINEERING

We create custom designs and oversee the entire installation process.

PROJECT MANAGEMENT & INSTALLATION

We work alongside your team to ensure your project progresses according to plan.

CONTROLS & SOFTWARE

We generate the control system functional design and manage software development.

CUSTOMER SERVICE & SUPPORT

We ensure your systems perform optimally and provide post-commissioning help as needed.

INDUSTRIES SERVED

Synergy designs and builds material handling systems in the following industries:

E-COMMERCE

APPAREL

FULL-PRICE RETAIL

FOOTWEAR

OFF-PRICE / OUTLET RETAIL

HOME & HOUSEWARES

OMNI-CHANNEL

PARCEL HANDLING

HEALTH & BEAUTY

WHAT IT MEANS TO BE A WOMEN-OWNED BUSINESS

In an industry dominated by men, Synergy Design & Integration is a woman-owned business. While rare in our field, women-owned and operated companies are at the leading edge of nearly every sector—and we're excited to be a part of the movement.

READY TO GET THINGS MOVING?
LET'S DO THIS. TOGETHER.

THE BENEFITS OF CUSTOM POOL INSTALLATION

If you're ready to dive into a custom pool on the first warm day next summer, start your pool installation project today! Design in the winter, build throughout the spring and make a big splash by Memorial Day in a brand new custom swimming pool.

As you start to plan your pool design project, you may wonder whether you should work with a standard pool installation contractor, or whether there's another expert that can help you with your pool design/build project.

Today, we're breaking down some of the top reasons to work with an outdoor living professional or a professional custom pool design company instead of opting for a standard pool installer.

CUSTOM POOL DESIGNERS HELP YOU AVOID COSTLY POOL INSTALLATION PITFALLS

At Milosi, we design and build complete backyard spaces. We look at the overall project, not just the pool, to create your dream outdoor space. Standard pool companies will place a pool in your yard and that will be the end of your project. With Milosi, everything from your grading and drainage to the outdoor living design around your pool is considered to create a luxury backyard with a cohesive, complete design.

With a standard pool installation, you're getting a one-size-fits-all shape placed into your yard. Instead of designing your outdoor living spaces around your pool, standard pool companies build a conventional shape without designing it to complement your home and landscaping. Standard pool installation companies don't always consider the overall appeal and use of your entire outdoor space when they are planning your pool. In these kinds of projects, landscaping and hardscaping often go unaddressed, and homeowners end up hiring another contractor to finish out the project.

A lot can go wrong with a pool project, from visually wrong leveling to filtration issues and improper measurements that impact the entire pool. Pool projects should be worked on by experienced contractors so that everything from the leveling to the plumbing, heating, design, drainage, and grading all are handled professionally.

Additionally, with a one-size-fits-all company, tailored service and workmanship may go overlooked. Once you've signed on and the digging is underway, you may have trouble reaching the project manager to discuss timeline, workmanship issues, and other potentially costly setbacks that have your dollars going down the drain.

With a custom swimming pool company or outdoor living professional like Milosi, you'll be assigned a dedicated project manager who will ensure that client services and workmanship are the top priority.

GET PERSONALIZED DESIGN SERVICES

With a custom pool from Milosi, we start with a consultation that involves a dive into your dreams for your backyard as a whole, and specifically, your needs for a pool.

We talk about how you will use a pool, whether that be for lap-swimming, sunbathing, therapy, playtime with the family, and more. We will really seek to understand what would make you fall in love with being in or around your pool.

Only then will we wade into the design phase. Here, our pool designers will work to create a sketch of your pool, incorporating pool features like sunbathing docks, pool lighting, fire features, custom-stone decking, and more. These features are all chosen to reflect your style and how you will use your pool.

Additionally, we will work to make the pool a natural inclusion within your outdoor oasis. We will design lush landscaping to surround the pool area, hardscaping to create a distinct space in the yard for the pool, and outdoor seating areas and an outdoor kitchen to complete the design. We will also address safety concerns and design and erect barriers as needed to protect children and pets.

Everything from the placement of your pool in your yard to the landscaping around it and the water in it can be designed with your lifestyle in mind.

INCORPORATE COOL FEATURES

Unlike a standard pool subcontractor, the entire Milosi pools team is focused on bringing to life dream backyards for our clients. To achieve this end, we hire the best pool installers and the brightest swimming pool designers.

We are intent on bringing together your entire outdoor space, as opposed to working through just one feature in your backyard. This allows us to create a cohesive and compelling outdoor area that truly represents you.

DIGGING INTO OUR ANNUAL LANDSCAPE MAINTENANCE CYCLE

When you invest in the design of your outdoor space, it's wise to implement a landscape maintenance plan to protect and promote your investment. Milosi's landscape maintenance program goes far beyond regular mowing. It takes an experienced horticulturist to continually monitor the health of your plants, and plant health is a major concern in maintaining the beauty of your outdoor living area.

THE BENEFITS OF LANDSCAPE MAINTENANCE

The benefits of landscape maintenance are immense. Our plans include regular mulching, fertilizing, pruning, trimming, irrigation maintenance, and pest control, among other initiatives.

However, the benefits to having a landscape maintenance professional handling the regular care of your lawn go further than the practical aspects.

Mulching and fertilizing create soil conditions that will allow your landscape design to thrive. Pruning and trimming allow for healthy new growth. Irrigation maintenance keeps your plants properly watered in each season. Pest control keeps destructive insects and animals out of your outdoor space. And the list goes on.

A SKILLED TEAM OF PROFESSIONALS

Bringing a skilled team to your property on a regular basis ensures that your landscape is receiving the attention it needs to thrive. Without proper and regular maintenance, your investment in landscaping could become dollars down the drain.

However, not all landscape maintenance professionals are properly equipped for the job. With other landscape companies, we have heard of homeowners running into project management issues, communication problems, and unprofessional work.

Conversely, Milosi's landscape maintenance clients experience top-of-the-line service and an elite standard of work. Our teams care for each property with careful attention to detail, anticipating issues and addressing problems as they go. Our team includes a Customer Relationship Manager that acts on your behalf, and manages the project professionally, so you don't have to.

A DEPENDABLE SCHEDULE

At Milosi, we maintain luxury landscapes on a dependable schedule, in alignment with our horticulture calendar. Our horticulture calendar is an annual schedule of seasonally appropriate landscape maintenance services. We provide these landscape maintenance services to each of our clients, including those under residential landscape maintenance plans, HOA landscape maintenance plans, and commercial landscape maintenance programs.

The annual maintenance cycle keeps our maintenance clients' spaces in top condition.

A YEARLY SEASONAL MAINTENANCE CYCLE

In addition to monthly maintenance, each season calls for different maintenance processes to optimize the health and presentation of your landscaping and plants. Our maintenance cycle is strategically organized to ensure that your landscape is receiving seasonally appropriate care as well as standard mowing, hedging, trimming and irrigation maintenance.

HOW WE MAINTAIN ELITE MIDDLE TENNESSEE LANDSCAPES

Our landscape maintenance services are available to homeowners throughout Middle Tennessee. Looking for outstanding customer service and practical landscaping solutions? We offer a complete suite of landscape maintenance services on a regular schedule to keep our clients' outdoor spaces looking polished year-round.

Since our team can handle all aspects of maintaining your outdoor space, we'll schedule services as needed based on appropriate timing. This means that you won't have to juggle the scheduling of several services with various vendors.

Here are some of the benefits to working with an elite landscaping services provider like Milosi:

REGULARLY SCHEDULED SERVICES

Our landscape maintenance customers receive regular turf maintenance as well as seasonal services like color rotation for flowers, general plant care services, mulching, weeding, and even regular lighting and irrigation maintenance.

When you become a client of Milosi's landscape maintenance services, we incorporate your property into our regular horticulture calendar. This is our 8-week cycle of seasonal landscape maintenance services. Each service is tailored to fit your space and your landscaping needs, whether it's just regular mowing, or regular pruning, mulching, and more.

Our horticulture calendar gets your services scheduled automatically, so you can rest assured your lawn will be serviced in a seasonal, timely manner without having to schedule each service date.

A DEDICATED CUSTOMER RELATIONSHIP MANAGER

At Milosi, we assign each of our maintenance customers a customer relationship manager. Your assigned relationship manager will be familiar with your property and will keep track of your maintenance services.

Your customer relationship manager (CRM) is your go-to contact for your maintenance. They are available to assist you with billing, scheduling adjustments, or any updates or changes to your regular services. Need to switch up your seasonal color, add more sprinklers, or re-schedule your service? Your CRM is always just a call away.

Your CRM will also reach out to you on a regular basis to remind you of upcoming services and notify you of any changes you can expect to see afterward.

With this contact, you won't ever have to rearrange your schedule to meet us in your yard on the day of your service. We want all of our services to be personal, accessible, and customizable, and your CRM is our way of ensuring your satisfaction with your outdoor spaces year-round.

PROFESSIONAL AND EXPERIENCED CREWS

Each of our landscape maintenance crews is trained specifically for the service your property requires. Every team member completes

Acceptance

At Nice Branding Agency, we build bold restaurant brands that position our clients to conquer their markets.

Our process for building bold restaurant brands is one that is clear, intentional and proven. We begin by systematically gathering pertinent information about your restaurant before outlining a strategic direction for the project. As your brand and brand support are developed by our team of experts, you'll be asked to weigh in at key points to provide insight and feedback.
